A MESSAGE FROM THE FOUNDER

In 2009, when I was an Intern in Clip-ex.

Me: Here are the samples you ordered, they're almost perfect!

Engineer: The color misses the pantone code by 6 %. Redo it!

Me: Here is the promotional item you ordered; they look amazing!

Engineer: There is a 0.6 mm variation to the order specs. Redo it!

Back then, I didn't understand why every single detail mattered so much. These were "just stickers" not parachutes. I finally plucked up the courage to ask my supervisor why he was so strict. His response: because bad products ruin good branding.

However, all that frustration evaporated when I met Roger Gu - the Co-founder of EverGreater Printing Solutions and now my business partner. We connected immediately on terminology and expectations.

Not only did he perfectly understand our requests, but he genuinely cared that that we got exactly what we wanted - first time, every time!

To date, EverGreater has helped more than 1500 customers across the globe.

And one of those loyal (and happy) customers is my previous supervisor.

I am proud to say that EverGreater is now his exclusive provider and that his factory has expanded from 3 to 300 workers over the past few years!

"Because your brand deserves perfect printing every time."

----*Miranda Wang, CEO & Co-Founder*

CERTIFICATION
